APCI eBanking Overview

APCI eBanking, our digital banking platform, is a secure way to access and manage your account activity from your personal computer or mobile device.

APCI eBanking offers our members:

Agility: Looking ahead, we see the importance of building our digital banking technology to be agile. Technology, similar to member expectations, is constantly changing. This inspires our drive forward.

Enhanced Security: The confidence in providing our members with the best security advancements available and increasing our already high levels of account and data protection.

Greater Integration: Expanding our ability to serve all members equally without having to use multiple apps or even visit the branch location.

More Access: With greater convenience that's easy to use from any device, anytime.

New Functionality: Adds more power to the types of transactions members can do.

Ongoing Improvements: Exploring new features and enhancements for a better member experience.

Welcome to APCI eBanking!

Using the APCI eBanking system, you can easily choose from these options:

- View your Account(s)
- Make a Transfer between your Account(s) or to another Member Account(s)
- Pay bills using APCI ePay
- Access APCI eStatements
- Open a Subshare Account (Share, Share Certificate or Share Draft Checking)
- Apply for a Loan
- Stop a Check Payment
- Request a Check Withdrawal
- Review Frequently Asked Questions (FAQs
- Set up APCI eAlerts for your Accounts or Cards
- Access Secure Messaging
- Send Outgoing Wire Transfers
- Calculate your Loan Payoff Amount
- And more!

APCI eBanking Enrollment

To begin the enrollment process, click the green APCI eBanking button that can be found on any apcifcu.org webpage or launch the APCI eBanking mobile app.

Select the "Enroll in Digital Banking" option to access the Online Banking Registration Page.

APCI eBanking Customizing Your Dashboard Tiles

You can customize the tiles visible on your dashboard.

On a personal computer:

1. Select the "Customize" tool.

2. Use the slider tools to add or remove tiles from your dashboard view. Green means the tile is visible, gray means it is not. Click "Save" to return to your dashboard.

On a mobile device:

1. Select the customize tool

2. Tap on the eye icon to add or remove tiles from your dashboard view. An eye icon that is gray with a diagonal line through it means the tile is not visible. Tap "Save" to return to your dashboard.

APCI eBanking Adding or Removing Accounts from View

You can choose to add or remove specific accounts from your Account List view.

On a personal computer:

1. Select the "Customize" tool.

2. Click on the eye icon to add or remove an account from view. An eye icon that is gray with a diagonal line through it means the account is not visible. Click "Save" to return to your account listing.

- 7. Select "Review" and then "Confirm" to complete your transfer.
- 8. If you have previously added the member to whom you are making a transfer select either "Member to Member Accounts" on a personal computer or "Manage" on a mobile device after accessing the transfer options.

- 9. Select the member you wish to transfer to from your list of linked accounts.
- 10. Select "Transfer To."
- 11. Complete steps 6 and 7.

APCI eBanking Creating an M2M Code

An M2M code is a code that you create to provide other members in order to make transfers to your account. This is an alternate option to providing your account number. When another APCI Federal Credit Union member uses your M2M Code, they will give the link to your account a nickname, and the code will no longer be visible to them.

1. On a personal computer choose the "Make a Transfer" tab, then select "Add Member Account."

APCI eBanking Two Factor Authentication

APCI eBanking gives you the option to require two factor authentication at every login.

1. On a personal computer select the profile icon, or your profile image if you have already added one, then select "Security."

On a mobile device open the Menu from the bottom of your screen and select "Settings," then "Security."

2. Select the "Authentication" tab and check the box to require two-factor authentication at every login. Select "Save."

Security Validation
Credentials Authentication Devices
Always require Two Factor Authentication when:
Google Authenticator
Google Authenticator is a software-based two-factor authentication (2FA) application. Once it is set up it will allow you to generate a code on your telephone and use it instead of your SMS or email for additional authentication. This is more secure than using standard text or email codes for authentication. When setting up Google Authenticator, other less secure channels such as text and email (or voice) are disabled. You may also use compatible apps like Microsoft Authenticator and Authy. Learn More
Set Up
Save

After this box is checked and saved you will be required to enter a six-digit code, in addition to your username and password, every time you login to APCI eBanking. Options for two factor authentication are: text message, voice message, email and the Google Authenticator app.
